**Report on Proposals Toward Development of 2027 UPC and UMC  
Now Available for Online Download**

**Ontario, Calif. (Aug. 12, 2024)** — The International Association of Plumbing and Mechanical Officials (IAPMO), developer of the *Uniform Plumbing Code (UPC®)* and *Uniform Mechanical Code (UMC®)*, has posted online the 2024 *Report on Proposals (ROP)* for the 2027 editions of these eight-time American National Standard-designated model codes.

No hard-copy editions of these publications will be printed or distributed. Interested parties are encouraged to download the documents at the following URLs:

**UPC:** <https://codes.iapmo.org/docs/2027/UPC/2024%20UPC%20Report%20on%20Proposals.pdf>

**UMC:** <https://codes.iapmo.org/docs/2027/UMC/2024%20UMC%20Report%20on%20Proposals.pdf>

IAPMO will begin the Call for Comments on these documents on Sept. 6. All suggested code amendments/additions/deletions published in the ROP will be available for public review, and no comments will be accepted after the 5 p.m. PST deadline of Jan. 17, 2025.

Eligible IAPMO members in attendance during the *UPC* and *UMC* Assembly Consideration Session will have the opportunity to vote on an Assembly Comment. This session will take place at IAPMO's 95th annual Education and Business Conference, Sept. 24, at Planet Hollywood in Las Vegas.

IAPMO employs a consensus development process accredited by the American National Standards Institute (ANSI), gathering the largest assembly of plumbing and mechanical experts in the world at its annual Education and Business Conference and Technical Committee meetings, enabling anyone — members and non-members alike — to propose changes to the code.

IAPMO urges its members and other interested parties to get involved in the code development process to ensure effectiveness in preserving public health, safety and welfare. Installers, plumbing and mechanical officials, the construction industry, engineers, and manufacturers all benefit from a cooperative effort in developing codes.
